

Press Release  
Dec. 16, 2010

For Immediate Release:

## **Birnie Electric Limited expands operation once again!**

December 16, 2010

Mississauga, ON

Mr. Tim Birnie, President of Birnie Electric Limited is proud to announce that as of January 01, 2011 they will be assuming the operations of Canada Electric. Canada Electric will continue its operation as a Division of Birnie Electric.

Canada Electric (which has served the construction industry in Ontario since 1917) has had an impressive list of completed projects including downtown office highrise complexes, Health Care institutions facilities and of course the well known retractable roof project of the Skydome now the Rogers Center.

Birnie Electric Limited was established in 1967 by Tim's father Mr. Peter Birnie. A full service electrical provider, Birnie Electric quickly became a leader in design build construction in southern Ontario and across Canada. Additionally Birnie Electric provide industrial service and maintenance, as well as structured cabling for data networks, security, fire alarm, public address, audio visual systems.

It was an incredible year at Birnie Electric in 2010. January saw the creation of the CurrentSAFE division. CurrentSAFE is a most unique electrical service and maintenance program serving homeowners and the residential market of the greater Toronto Area. And to close the year, the formation of the Canada Electric division as well as moving to a new standalone office building in Mississauga.

Birnie Electric is expanding operations, moving to larger facilities and proud of it!
